

What People Are Saying About... Reading Rocks

One of the major components of the program was the one on one, and the support from the volunteers to the child that it is ok to make mistakes, no judgment and that helps to focus their strengths.

The volunteers make a big difference by keeping the children engaged in various activities. They all seem motivated and happy to be there. My child's tutor was energetic and seemed to enjoy my child.

Reading Rocks is the only thing I don't drag my children to. They can't wait to come. They think it is fun and love their tutors. They find friendship with someone who makes learning fun.

My son has participated in Reading Rocks over 3 times and has always had a very enjoyable learning experience. He gains so much confidence in his reading skills each session.

I have never seen [my son] be so excited to attend any learning program. Not only was he excited, but he would talk about what he was going to do and learning the next time he come to "visit" [his tutor]. I cannot express the gratitude I have to Reading Rocks for not giving [my son] great experience, but helping him succeed in his reading goals in a fun and exciting manner.
